

Ludovic Célérier is a young French entrepreneur from Paris. He starts his career in IT and Digital Strategy consulting. He co-founded several Start-ups in Smart-City and Smart-Building in particular in new uses like coworking, and local community tools. Since 2016 he helps entrepreneurs in sustainable development to create and develop viable product (Platform conception, recruitment, strategy, etc). Currently, he works as Senior Consultant in Innovation for Corporate in Real Estate; his speciality is Long term strategy and prospective. Ludovic is a sailor since he was young, that's why he attributes importance to saving our planet. Ludovic is also administrator of the Yacht Club de France and in charge of environment & pollution. He cares about making innovation projects fly, and connecting them as fast and with as much focus as possible on a market, on a demand to transform it. @LudovicCELERIER
